

# PRAYAS

## India

The project focuses on responsible sustainable campus. It's an effort to measure each activity performed in the campus that is contributing to the carbon footprint. With the help of various initiatives the team aims to achieve a carbon neutral campus.

**Following are a list of activities included in their project:**

1. The members of the team along with NCC & NSS, and the faculty members carried out a tree plantation drive in their campus. Saplings of neem, gulmohar & garmalo were planted.
2. The team has planned to identify key activities that are generating carbon emissions, like Energy, Water, Waste and Transportation.
3. The energy audit will later help them to adopt efficient measures like star-rated appliances.
4. The later stage of the project will also include recycling of water to produce bio gas.

### Team Members

Chirag Pujara, Annie Jha, Jyotin Bhatt, Shrilaxmi Nair, Dimple Bhatia, Sanjay Rathod, Dhanraj Desai, Twinkal Tanna, Kanta Parmar, Urja.
